KEEPnTRACK RECORD SYNCHRONIZATION

“Our goal at Identity Automation is simple – provide extraordinary customer service as we meet our customer’s technology needs. We accomplish this by providing information and resources that free our customers up to address the core goals of their business and by partnering with organizations that are as committed to quality as we are.”

James Litton, CEO

BENEFITS

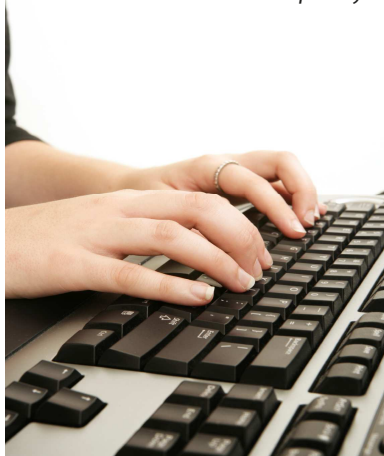

- No infrastructure requirements
- Process efficiency / automation
- Improved service levels
- Cost reduction
- Automated facility records
- Automated person records

OUR VALUES

- Trustworthiness
- Respect
- Stewardship
- Perspective
- Service

DIFFERENTIATORS

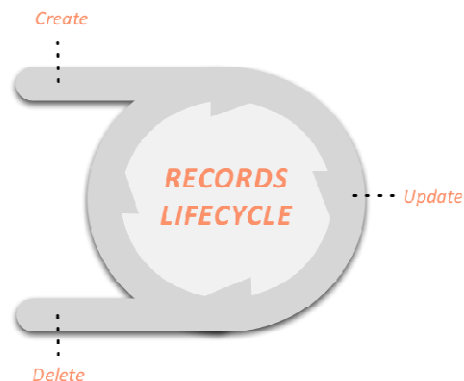

- Rapid Implementation
- Rapid ROI
- Simple to use
- Affordable

Solution Overview

Our KeepnTrack solution is a hosted offering that securely manages person and facility records for KeepnTrack. As new staff and students enter the organization and, as those users leave the organization, we take the necessary steps to automatically manage those records within KeepnTrack without a requirement to modify your existing business processes.

Annual Cost: \$399 per campus
